FINALLY!

A SAFE, FAST AND EFFECTIVE HAIR REMOVAL* SOLUTION THAT CAN BE CUSTOMIZED JUST FOR YOU.

Each hair and skin type responds best to a specific wavelength. SHR speed AFT from the Harmony XL PRO provides a **CUSTOMIZABLE TREATMENT** protocol that will give patients the results they are looking for.

SPEED AND COMFORT

Advanced contact cooling technology keeps patients **COMFORTABLE DURING TREATMENTS**, allowing for virtually painless, yet highly effective hair removal.

The sweeping In-Motion™ technique keeps the laser in constant motion ensuring full coverage of the treatment area – improving results with **SHORTER TREATMENT TIMES**.

A variety of applicators allows your doctor to **TREAT ANY PART OF THE BODY**, including the smallest and most sensitive areas.

*Permanent reduction in hair regrowth, defined as a long term, stable reduction in the number of hairs re-growing when measured at 6, 9 and 12 months after the completion of a treatment regimen.

FREQUENTLY ASKED QUESTIONS

HOW LONG DOES A SHR SPEED AFT TREATMENT TAKE?

A treatment can take as little as a few minutes to as long as an hour, depending on the treatment areas, skin and hair type. Thanks to the In-Motion™ technique combined with the large spot-size applicator, women's legs or a man's back can often be treated in as few as 30 minutes.

HOW MANY TREATMENTS WILL I NEED?

Hair grows in stages – and the hairs on your body are not all in the same stage at the same time. Only hairs in the growth phase will be affected by the treatment. This means that you'll need multiple treatments to get the best results. Clinical research shows that a series of 3-6 treatments spaced between 1-3 months apart are required to achieve permanent hair reduction. Your provider will develop a specific plan for your goals.

HOW CAN I PREPARE FOR AN SHR SPEED AFT TREATMENT?

Your treatment provider will give you specific instructions to follow before your treatment. It is generally recommended that patients avoid plucking, waxing and electrolysis for 6 weeks prior to the treatment. On the day of treatment, skin should be clean-shaven and thoroughly cleansed.

WHAT CAN I EXPECT AFTER TREATMENT?

Your provider will give you specific post-treatment instructions. While your skin may be slightly red immediately after the procedure, this should resolve within a few hours. You can resume your normal activities immediately following the treatment.

VIRTUALLY PAIN-FREE

Contact cooling and In-Motion technology keep treatments comfortable.

PROVEN SAFE FOR ALL SKIN TONES AND HAIR TYPES

Clinically tested and FDA-cleared provide effective results for all patients, from light to dark skin.

FAST TREATMENTS

Treatment sessions are super-quick even for large areas thanks to In-Motion™ technology and multiple applicator sizes.

NO DOWNTIME

Get back to your routine immediately.

PERFECT FOR ALL AREAS OF THE BODY

Easily and effectively treats small to large areas.
